

Task 1: Create a Simple Contact Form

Objective:

Design a basic contact form where users can submit their name, email, and message.

Instructions:

1. Title your webpage (e.g., "Contact Us").
2. Add a heading, such as "Contact Form."
3. Create a form that includes:
 - Text input fields for the user's name and email.
 - A textarea for the user to write a message.
 - A submit button to send the form data.
4. Ensure that the email field uses proper validation attributes like `type="email"` to ensure correct data entry.
5. Add appropriate labels for each form element and use `
` tags to space the form fields.
